

Q&A

Leave your questions for Pete
in the comments and he will
respond in the upcoming
post!

Pete
Davis

FOR A
Better
Fort Payne

Mayor

Paid for by the friends of Pete Davis • 6005 Greenhill Blvd, Fort Payne, AL 35967

Q&A

”

What are your priorities related to public safety?

It is important that our Police, Fire & Rescue, and E-911 Departments are adequately supported so that they can provide the highest level of public service to the residents of Fort Payne and to our visitors. We are extremely fortunate to have excellent employees and heads in these departments who are doing a great job. I have spoken to Police Chief Davis, Fire Chief Smith, as well as many officers, to learn more about their needs. If elected I will work closely with them to prioritize and address these needs.

Q&A

”

How do you feel about installing metal detectors in Fort Payne City Schools?

I would not be opposed to having some form of metal detection technology in our schools if our Superintendent of Education and School Board felt the need to enhance the comprehensive safety plan already in place. We are fortunate to have trained SROs in each of our schools, as well as safety and security protocols in place to create a safe school environment. If the Superintendent and School Board felt the need to add security technology such as metal detection, I would support that.

Q&A

”

The city currently has limited financial resources in the general fund. What is your plan to address this?

My priority will be to build our general fund back to a level that is appropriate for the size of the city's annual budget, and to build the city's savings up to a healthy level. I will work closely with the city council to stop spending that doesn't contribute to the maintenance of existing facilities and infrastructure, to stop spending that doesn't ensure that our city employees and department needs are taken care of, and to stop spending that isn't a part of the city's strategic plan. Unplanned emergencies will be addressed, but wasteful and unnecessary spending must stop.

Q&A

”

What is your long-term plan for the city pool?

I will work with the Parks and Recreation Department to evaluate the condition of the pool and determine if it can be repaired or if it's beyond repair due to years of neglect and lack of adequate maintenance. We will need to study costs to repair vs cost to build and see how these costs align with our long-term plan for the city. A "Long-term plan" for Fort Payne is critical, so that we execute that plan day-by-day and year-by-year to support the strategic vision for our city.

Q&A

”

How can the city bring in attractions for our youth?

We must seek out private investors and make this a city that they want to invest in, possibly by making city-owned properties available and/or providing tax abatements for businesses that the citizens want and will support.

Q&A

”

What are your thoughts on a leash law?

I've met so many animal lovers and responsible animal owners in our community. I've also seen animals running free and sometimes creating a safety concern and nuisance to our citizens and their properties. I feel that owners should be responsible and in control of their animals, and I would not oppose a leash law.

Q&A

”

What do you plan to do differently from what's being done now?

The city of Fort Payne is no different than a large business and should be operated like a business. The Alabama League of Municipalities explains that the mayor of a city serves as the head of the executive branch and is responsible for overseeing the day-to-day operations of the city. The mayor is charged with the general supervision and control of municipal departments, programs and facilities. The mayor performs many of the same functions as a CEO of a private corporation. If elected I will provide the leadership that is critically needed to bring financial stability, responsible decision-making, and vital progress to Fort Payne.
